Problem Solving
Communication
Adaptability
Teamwork

EDUCATION

School of Open Learning
B.Com (Hons.) · Exp. 2026

Patrachar Vidyalaya

Senior Secondary (XII)
2023

PROFILE

UI Designer with a Commerce background — moved into design out of a persistent curiosity about why some interfaces feel effortless while others frustrate. Works in Figma, obsesses over user flows and visual systems, and believes the best interface is the one nobody notices.

WORK EXPERIENCE

Graphic Designer

Nov 2025 – Apr 2026

Gesis Web Solutions Pvt. Ltd. · Sector-5, Rohini

- Designed visual assets and marketing materials for web and digital platforms.
- Collaborated with development and marketing teams to deliver on-brand creative solutions.
- Produced graphics for social media, web banners, and client campaigns with a focus on clarity and visual impact.
- Used Photoshop extensively for image editing, compositing, and creation of high-quality print and digital assets.

UI/UX Designer

2023 – Present

Freelance · Independent Projects

- Designed end-to-end UI for Virtual Library — an EdTech platform across mobile and web, resolving broken user flows and inconsistent visual hierarchy.
- Built reusable component systems and design tokens in Figma for scalable, consistent UI across screens.
- Delivered pixel-accurate handoff specs using Auto Layout and developer annotations.

Youth Ambassador

Apr 2023 – Jan 2026

Viral Fission · Internship

- Created visual content and brand communication assets for TATA Groups, Red Bull, and Skybags.
- Grew social media engagement by 45% through structured visual storytelling and audience-first content strategy.
- Awarded 5-star performance certificate for consistently delivering on campaign targets.

Accountant

Mar 2023 – Aug 2024

GSPT & Associates · Internship

- Handled complex data for 500+ clients — built strong attention to detail and structured thinking that shows up directly in design reviews and QA.

FEATURED PROJECT

Virtual Library

EdTech Platform · UI Redesign

Redesigned a code-first tutoring platform — resolved inconsistent visual hierarchy, broken user flows, and a mobile experience that felt like an afterthought. Delivered a calm, structured UI system across mobile and web.
